

Subject: [Name], Here's The One Question You'll Never Get Sick of Answering

Hi [Name],

“Did you lose weight?”

Ah...the four most beautiful words in the English language. When strung together, they form the one question you never get tired of hearing.

Especially when the answer is “YES!”

If it's been a while since anyone asked you that question and you're serious about making some (welcome and long overdue) changes in 2008 – I want to remind you about the program I introduced a few days ago.

It's called the Skinny Jeans Jump Start Program.

You're guaranteed to lose 10-20 pounds in five weeks...and you won't gain it back.

There are no expensive bars, shakes or pills to buy. You'll only eat delicious and satisfying foods – like baked halibut and steak with tomato and avocado. And you'll have a dedicated, personal lifestyle and nutrition coach to keep you motivated and cruising toward your goals.

But don't just take it from me. Here are a handful of the results I've seen from the women I've helped so far...

Jane L. lost 15 pounds in five weeks – proving once and for all that it's NOT harder to lose weight after 40.

Jordan A. noticed some unexpected (but exciting) side effects. She's in a perpetual good mood, she has boundless energy and she doesn't catch a cold from every germ that crosses her path.

Catherine S. was pleasantly surprised to find the system easy to follow and – in her 50s – lost more weight than she had on any other weight loss program. With no food cravings!

You'll find all the details and more success stories here:

[program URL]

It only takes five short weeks to learn what you need to know to be healthy and fit for the rest of your life. Why not start today?

Yours,
Monika

P.S. I'm offering up a doozy of a bonus package...but it's only available for a limited time. Everything you need to know is here:
